

Arya Mohan

UI UX Designer

Profile

I am a design practitioner driven by a deep interest in human-computer interaction and purposeful experiences. Combining creativity with solution-oriented thinking, I strive to craft impactful and meaningful designs. I stay engaged with the latest design trends, thoughtfully integrating them into my practice to elevate user experiences.

Experience

Unien / UI/UX Freelance

Dec 2023 - Feb 2024

Conceptualized and designed elements for presentation decks, while also developing an engaging narrative and interactive experience for the website.

AiThoughts / UI/UX Freelance

Jun - Sep 2024

Redesigned the webpage, transitioning it from a blog community forum to a business website, with contributions primarily to user interface design.

SMI Interpretations / Production Lead

Dec 2024

Managed communication between the branding design team and print vendors for the college's annual exhibition. Served as the single point of contact, ensuring seamless coordination between the institution and vendors responsible for print media.

KiksAR Technologies / UX/UI Intern

May 2025 - July 2025

Led end-to-end UX/UI redesign for [Kiksy.live](#), including website revamp, user onboarding, customer console, micro-interaction flows, and design system development for a cohesive SaaS experience.
